

RR DONNELLEY

# TRUCKLOAD AND INTERMODAL SERVICE WITH ASSURANCE

Rely on strong support from an expansive, global company with  
local, responsive service

# RESOURCES THAT DELIVER FOR YOU

## Advantages of scale

When truck and driver availability is tight, high-volume shippers usually get the preferred service levels. A consistent large volume of freight from RR Donnelley, combined with the high freight volume from DLS Worldwide, affords us volume-leveraged purchasing scale for superior service levels. ***In addition to elevated service levels, DLS Worldwide's large volume of freight affords us attractive truckload rates that we are able to pass on to you.***

**Value-priced truckload solutions: dry van, flatbed, intermodal, and more.**

## Efficient, innovative technology

RR Donnelley's DLS Worldwide offers true integrated transportation solutions that offer multiple services, modes and carriers. This requires sophisticated, behind-the-scenes IT (Information Technology) systems; not just up-front user screens that give the illusion of seamless service, mode and carrier integration. ***Backed by RR Donnelley, DLS Worldwide has the financial and people assets needed to support the necessary IT systems.***

## Better allocation of resources

Selecting the most cost-effective and reliable transportation provider requires both time and personnel. With DLS Worldwide, an industry-recognized top 3PL provider, you save on both. One call to DLS Worldwide provides you a single contact for all of your truckload and other transportation needs and eliminates the timely processing of multiple invoices from multiple carriers.

Besides single-source service, you'll enjoy responsive service. ***Our local, nationwide offices are staffed by knowledgeable transportation professionals with proven expertise, committed to the belief that the most important asset is our customers.*** When you rely on us to support your truckload freight and other transportation processes, you are free to focus on servicing your customers.

## Savings through modal options

When you have flexible transit options, intermodal can provide the most cost-effective and energy-efficient transportation solution. ***We understand the nuances of intermodal. DLS Worldwide has the resources and experience to realize and execute modal conversions from highway to intermodal.***

**RR Donnelley's DLS Worldwide provides the scale, technology, and network for truckload and intermodal service that you can depend on.**
